WHAT IS HFT?

HFT is also known as High Frequency Trading. HFT is a method of trading that uses powerfull computer programs to transact a large number of orders in fraction of second

High-frequency trading 🔍

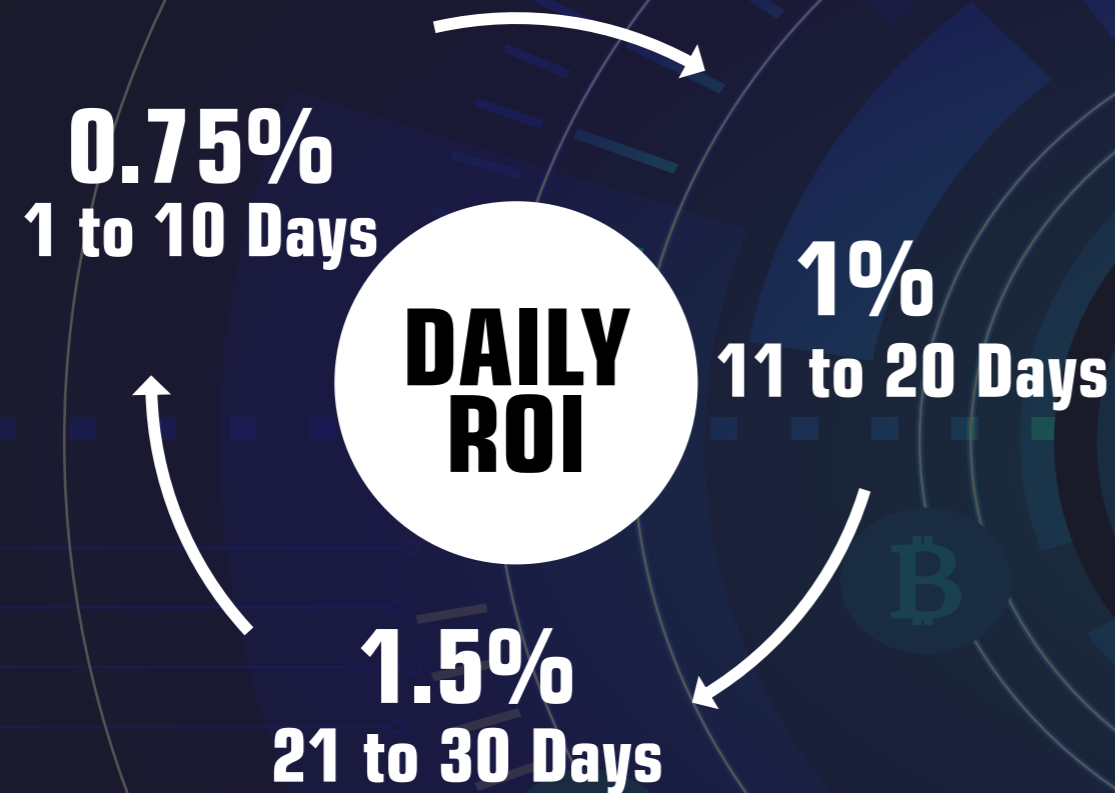

Daily ROI %

Will Increase as the community Grow

ARM is community Based project. Our community will grow our ROI will grow also. Here we should understand community grow means increasing number of transaction on blockchain and growth of Liquidity Pool.

Rotational Daily ROI on Monthly Basis

Note: If anyone makes withdraw before completion of 30 days trade cycle, ROI will be reverse back and start from 0.75%

Note : After deposite of capital ROI will drop after 24 Hour as per Dubai Time Zone.

Investment Amount	Monthly ROI	Quartely ROI	Half Yearly ROI	Yearly ROI
10	3.25	9.75	19.5	39
20	6.5	19.5	39	78
30	9.75	29.25	58.5	117
50	16.25	48.75	97.5	195
100	32.5	97.5	195	390
200	65	195	390	780
300	97.5	292.5	585	1170
500	162.5	487.5	975	1950
1000	325	975	1950	3900
2000	650	1950	3900	7800
3000	975	2925	5850	11700
5000	1625	4875	9750	19500
10000	3250	9750	19500	39000
20000	6500	19500	39000	78000
30000	9750	29250	58500	117000
50000	16250	48750	97500	195000
100000	32500	97500	195000	390000
